SUZUKI GSR750

SLIP-ON MEGAPHONE EXHAUST SYSTEM

DESCRIPTION

The Akrapovič Slip-On Megaphone exhaust system is designed for riders who demand the ultimate racing look and do not want to make any major modifications to their stock exhaust system. However, the oval megaphone-shaped muffler, made entirely of titanium, delivers great MotoGP looks as well as increased performance and pure racing sound for the popular Suzuki. All the writing on the Megaphone sleeve are laser engraved and extremely durable. The Akrapovič Slip-On Megaphone system is not homologated but has a replaceable noise damper that reduces noise to an acceptable level.

PERFORMANCE

Measurements of the Akrapovič Slip-On Megaphone system on the Suzuki GSR750 (without muffler insert):

Power & Torque:

The Akrapovič Slip-On Megaphone exhaust system increases your engine power and its torque at practically every rpm. Especially from 4500 rpm on, the Akrapovič Slip-On Megaphone adds an increase in power, all the way up to the top of the rpm range.
