

SUZUKI RMX450Z (2010)

SLIP-ON EXHAUST SYSTEM

Our sporty and lightweight SLIP-ON exhaust system offer a great balance between price and performance and represent the first step in the exhaust system tuning process. The muffler outer sleeve is made of titanium, which gives a special hi-tech touch. The system is designed for two markets; in the USA they are available with an approved spark arrester, and for the EU and other non-US markets it comes with a noise damper to fulfill the newest strict noise regulations in enduro racing. We offer two options of the link pipe, you can choose from stainless steel or titanium.

PERFORMANCE

Measurements of the Akrapovic Slip-on system on the SUZUKI RMX450Z (with muffler insert):

Power & Torque: The Akrapovic Slip-on systems deliver a performance increase throughout the bottom and top rpm range. The systems deliver increased torque through entire power curve, what will additionally help at reducing lap times on the track. Max. increased power of 4.9 HP was measured at 7970 rpm, while max. power of 44 HP was measured at 9100 rpm.

PERFORMANCE			
	stock	AKRAPOVIC	max. increased power
max. rear wheel power HP / rpm <small>(measured on SuperFlow Cyle Dyn)</small>	42.6 / 9060	44 / 9100	4.9 / 7970
